

DIAIbum / MAT25

Sedum shoots and carpet

500103 / 500109

ADVANTAGES

DIAIbum

- Economical solution
- Sedum that is guaranteed to develop on a greenroof, which results in a resistant and durable vegetation

MAT25

- Green roof ready to be handed over ⇨ the pre-grown plants allow the quick installation of an instant vegetation
- Assures complete vegetation coverage, thus there is no danger of erosion
- The roots are already developed at installation, thus there is less need of care
- Suitable for roofs with inclination

DIAIbum

MAT25

SPECIFICATION

DIAIbum

Sedum shoots for scottering, consisting of 5-8 different Sedum species and varieties, trained for special green roof conditions. Proportion of flowering parts: <5%. Required quantity for machine sowing on industrial green roofs: 80-100 g/m². Required quantity for manual sowing on smaller private areas: 100-150 g/m². Sow immediately after delivery! May be stored in a cool, dry, shady place for max. 2-4 days.

Product: DIADEM® DIAIbum
Manufacturer's certificate: APP Kft.
Website: www.diadem.com

MAT25

Sedum mat consisting of 5-8 different Sedum species and varieties, trained for special green roof conditions, for the immediate greening of extensive green roofs. Coverage: at least 75%; Thickness: approx. 2 cm; Dimension: from 2m² to 4m², depending on the required quantity; delivered in rolls; weight in dry condition: approx. 15 kg/m²; saturated weight: approx. 20 kg/m². Has to be installed immediately after delivery! After the installation regular watering (min. 20-30 l/m²) is needed, until the sedum mat has taken root firmly and the requested coverage is achieved.

Product: DIADEM® MAT25
Manufacturer's certificate: APP Kft.
